

EcoLine Clothing & Bisleri join hands to turn PET waste into sustainable fashion

By Our Staff Reporter

MUMBAL, JULY 20—

In a landmark initiative that blends sustainability, innovation, and circular economy principles, Bisleri International has partnered with EcoLine Clothing, the flagship sustainable brand of Shree Renga Polyester Pvt. Ltd., through a formal Memorandum of Understanding (MoU) signed at Bisleri's headquarters in city.

The collaboration aims to recover used PET bottles through Bisleri's flagship initiative, Bottles For Change, and convert them into high-quality fashion and lifestyle products under the EcoLine brand.

The MoU was signed by Mr. Angelo George, CEO of Bisleri International, and Mr. Sankar K, Chairman of Shree Renga Polyester, in the presence of Mr. K. Ganesh, Head of Sustainability and CSR at Bisleri International, and Mr. Senthil Sankar, Managing Director of Shree Renga Polyester and Co-founder of EcoLine Clothing.

Through this partnership, collected PET bottles will be transformed into finished products such as jackets, uniforms, bags, and apparel using EcoLine's state-of-the-art bottle-to-fabric technology, which incorporates dope dyeing and nanotechnology for enhanced durability and sustainability. This innovative model has already proven successful in previous collaborations with the Indian Army (Siachen) and the Royal Government of Bhutan.

This alliance marks a significant step forward in showcasing how collaborative action can drive meaningful change toward a circular and climate-conscious future.

Speaking on the occasion, Mr. Angelo George, CEO, Bisleri International said, "Plastic pollution is one of the most pressing environmental issues India faces today. At Bisleri, we believe managing plastic waste is not just an environmental responsibility but also an economic opportunity. Our partnership with Shree Renga Polyester through its EcoLine brand is a significant step forward in extending the life cycle of used plastic. Together, we are not just recycling PET bottles—we are reimagining their potential by transforming them into sustainable fashion and lifestyle

Bisleri's nationwide collection network and our vertical integration, we're excited to close the loop on plastic waste."

The partnership will also include consumer awareness programs, green fashion campaigns, and transparent impact reporting.

solutions."

Mr Sankar K, Founder & Chairman, Shree Renga Polyester Pvt. Ltd., added, "This collaboration is a powerful example of how two mission-driven organizations can create environmental and social impact at scale. At EcoLine, we believe sustainability must be visible, wearable, and affordable. With

Spain tour: MP CM meets textile and fashion sector giants; seeks investments, partnerships

BHOPAL, JULY 20—

Madhya Pradesh Chief Minister Mohan Yadav this week presented the state as a "green, cost-competitive and traceable" production hub during his tour of Spain. The focus of the CM's visit was investment dialogue with the giants of the global textile and fashion sector, an official statement said.

"In the meeting held at Inditex headquarters in Galicia, the CM presented Madhya Pradesh as a green, cost-competitive and traceable

production hub. During the meeting, there was a detailed discussion on the possibilities of business partnership and sustainable investment with senior officials of the Inditex Group," it said.

The CM said the Madhya Pradesh government is fully committed to global partnerships in the textile sector and the presence of a reputed brand like Inditex will accelerate economic development, enhance employment generation and

Global Outreach Summit and BSL Excellence Awards scheduled in capital next week

By Our Staff Reporter

MUMBAL, JULY 20—

The national capital is preparing to host the inaugural edition of the Global Outreach Summit and BSL Excellence Awards 2025, a two-day industry platform that will bring together leading voices from the textile, fashion, sourcing, and retail sectors.

Scheduled for July 30 and 31 at the Bharat Mandapam Convention Centre, the event is being organised by the Brands and Sourcing Leaders Association (BSL), with a focus on global trade dynamics, sustainable manufacturing, and leadership across the value chain.

The summit will be inaugurated by the Chief Minister of Delhi, Ms. Rekha Gupta, in the presence of senior government officials and business leaders. Among the key dignitaries expected to attend are Mr. Jyotiraditya Scindia, Minister of Communications and Development of North East, and Mr. Sanjay Savkare, Minister of Textiles, Government of Maharashtra. On the second day, Union Minister of Textiles Mr. Giriraj Singh is scheduled to address the gathering, setting the tone for deeper government-industry engagement on policy and investment.

With more than 5,000 delegates, over 100 exhibitors, and a lineup of 80 speakers, the summit marks a significant step in uniting India's sourcing and manufacturing leadership on a single platform. The programme will feature industry figures such as Ms. Lavanya Pachisia, Chief Executive Officer at Zivame, Mr. Nitin Prasad, Vice President at Walmart Sourcing, and Mr. Wicrant Gambhir, Head of Responsible Sourcing at Landmark Group. They will be joined by Mr. Rohit Joshi, Chief Operating Officer at Impulse International, Mr. Praveen Varindani, Managing Director at Columbia Sportswear Company, and Ms. Jasveen Kaur, Senior Sourcing Director at Newtmes Group of Companies, among others.

The agenda includes leadership forums, panel discussions, and curated conversations under the BSL Talks segment. On the

MP CM meets Spanish textile and fashion giants

Continued from Page 1 Col 6

promote green production in the state.

"We are ready to support this partnership at all levels. Madhya Pradesh government promotes ESG (Environment, Social, and Governance) values. Water recycling, waste management and decent work standards are applicable in MP and the state's vision completely matches with Inditex's responsible sourcing policy," the release quoted him as saying.

"The ESG module being developed by the Madhya Pradesh government is getting positive response at the global level. Mr. Jose M Romay and Marta Francos Rey of Inditex took it seriously while appreciating it. They have emphasised it can become a role model for stable development, inclusiveness and good governance. They also appreciated efforts being made in policy making for ESG goals in the state and the ecosystem available for investment in the textile sector," the release said. Madhya Pradesh is one of the top raw cotton producing states in the country, where about 18 lakh bales (3 lakh metric tonnes) are produced annually, the CM said.

"There are more than 15 textile clusters in the state. Centres like Indore, Mandsaur, Burhanpur, Ujjain, Neemuch are leading in textile production. A textile mega park being developed under PM Mitra scheme of the Government of India in Dhar district can become an ideal centre for sustainable and integrated manufacturing for global brands like Inditex," the CM said while proposing that the company set up its unit at the facility.

"Madhya Pradesh is India's leading organic cotton producer.

Par panel report on new
Income Tax Bill, 2025

to be tabled in LS today

NEW DELHI, JUL 20 (PTI)

A report of the parliamentary committee set up to scrutinise the new Income Tax Bill, 2025, which would replace the six-decade old Income Tax Act, is scheduled to be tabled in the Lok Sabha on Monday.

The 31-member Select Committee, chaired by BJP leader Baijayant Panda, was appointed by Lok Sabha Speaker Om Birla to scrutinise The new IT Bill, 2025.

Global Outreach Summit in capital next week

Continued from Page 1 Col 2

opening day, the Supply Chain Awards will be presented to organisations demonstrating operational and distribution excellence, followed by the Global Style Spectrum fashion showcase which will highlight responsible design, Indian craftsmanship, and sustainable innovation.

July 31 will focus on high-level strategic engagements, including a CEO Roundtable, leadership meetings with key policymakers, and a series of

Cotton is produced in abundance in the state, especially in Nimar and Malwa regions. Global Organic Textile Standard (GOTS) certified farmer groups are active here, which can be ideal partners for Inditex's sustainability and traceability policies," he said.

Yadav suggested working together with Inditex on the farmer-to-fabric value chain, adding that MP is also surging ahead in the area of cotton to carbon fibre.

The chief minister also informed that the annual export of textiles and garments from the state is more than Rs 7,000 crore, with the European Union being the leading importer.

"With the partnership of brands like Inditex, this figure can reach Rs 10,000 crore, which will also give strength to local employment and women empowerment," the CM said while sharing features of the state's new Industrial and Export Policy 2025, which includes 90 per cent subsidy on land, 40 per cent capital assistance on machinery, 50 per cent assistance on green technology and interest subsidy on loans etc.

"The chief minister invited Inditex to become a partner as a supply chain anchor in PM Mitra Park. He also suggested starting an organic cotton tracing platform and a vendor development program with ESG certified MSMEs," the release said.

Spain's Inditex (Industria de DiseÃ±o Textil S.A.) is one of the world's largest fashion retail companies, with brands like Zara, Massimo Dutti, Bershka, Bull & Bear. The company is headquartered in Arteixo, Galicia. In India, Inditex works with the Tata Group through the Zara and Massimo Dutti brands. (PTI)

brand presentations. Retail giants such as Walmart, Li & Fung, Columbia Sportswear, and H&M will feature in focused discussions. The day will close with the BSL Platinum Awards, recognising distinguished contributions to sourcing, innovation, and leadership across the apparel and lifestyle industries.

Supporting platforms such as the BSL Excellence Pavilion and the B2B Matchmaking Zone will enable manufacturers, sourcing heads, and international

buyers to engage directly. The event organiser, the awards and summit have been designed to drive forward-looking collaborations and celebrate meaningful progress within the industry, informed the organiers.

With expectations running high, the summit, the organisers informed, is expected to provide an opportunity not just for recognition and exchange, but also for building long-term partnerships across the textile and sourcing value chain.

KNOT raises \$3M funding to accelerate as
city's fastest fashion delivery platform

MUMBAL, JULY 20—

KNOT, a fast-growing quick commerce fashion platform, has raised fresh funding to scale its operations and deepen its mission to redefine how India shops for fashion. The company is pioneering a 60-minute fashion delivery model in Mumbai, combined with its signature Try 'n Buy experience, a format that's rapidly gaining traction among Gen Z and millennial consumers.

KNOT was founded in 2025 by IIT Bombay graduates Archit Nanda and Rachit Bansal, following a pivot from their earlier startup, Slick. The founding team saw a massive gap in how fashion is discovered and consumed digitally. "We didn't just want to sell clothes. We wanted to reimagine how people experience fashion that is accessible, fast, and seamless," said Archit Nanda, Founder of KNOT. "Quick commerce changed food, groceries, and essentials. We believe fashion is the next frontier."

Since its launch, KNOT has partnered with over 70+ leading brands including SNITCH, Bonkers Corner, The Souled Store, The Bear House, and Off Duty. It now processes thousands of orders every month, catering to a growing user base that values speed, flexibility, and curated fashion discovery.

KNOT has raised a \$3M Pre-Series A round led by Kae Capital with participation from Sparrow Capital, Boundless Ventures LLP & Kumar Saurabh (Aukera Jewellery) and existing investors WEH

Ventures & All In Capital. It also saw participation from the founders of SNITCH, Souled Store & Bonkers Corner. This funding will accelerate product development, expand operations beyond Mumbai, and deepen brand partnerships

Sunitha Viswanathan (Partner, Kae Capital), said, "Online fashion shopping hasn't kept up with the changing consumer's needs. GenZ consumers are becoming a big driver for online sales and they prefer speed, curation and trust. Fashion commerce needs to be reimagined for this consumer and this is what KNOT is solving. We are thrilled to partner with the team as they build what can become the definitive fashion marketplace for India's next generation of shoppers."

The company's standout features include:

- 60-Minute Delivery: Customers can receive their fashion orders in under an hour — ideal for last-minute plans, impulsive buys, or daily wear needs.

- Try 'n Buy: Customers can try on their order at the doorstep and return what doesn't work immediately — offering convenience and flexibility previously unheard of in online fashion.

- AI Try-On: A virtual try-on feature helps users preview styles digitally before ordering, reducing decision fatigue and return rates.

KNOT is also pushing cultural relevance by integrating community-led content and influencer-driven discovery. Through short-form video, real reviews, and on-ground activation, KNOT aims to bridge commerce with culture, making fashion delivery not just faster, but more fun and expressive.

India, US teams conclude 5th round
of talks on proposed trade pact

NEW DELHI, JULY 20-(PTI)

India and the US teams have concluded the fifth round of talks for the proposed bilateral trade agreement (BTA) in Washington on July 17, an official said.

The negotiations were held for four days (July 14-17) in Washington.

"The Indian team is coming back," the official said. India's

chief negotiator and special secretary in the Department of Commerce Rajesh Agrawal led the team for negotiations.

These deliberations are important as both sides are looking at finalising an interim trade deal before August 1, which marks the end of the suspension period of Trump tariffs imposed on dozens of countries, including India (26 per cent).

Global exhibitors across sub-sectors confirmed for Cinte Techtextil China scheduled for Sept. 2025

MUMBAL, JULY 20—

With 12 exhibiting countries and regions so far confirmed, Cinte Techtextil China is poised to present a dynamic industry platform, bridging the gap between Asian and Western markets. From 3 to 5 September in Shanghai, the fair will feature a full spectrum of technical textiles and nonwovens for 12 application areas, with a key highlight being 2025’s debut product category and zone – the Textile Chemicals and Dyes Zone. Meanwhile, domestic and international exhibitors with automotive applications can be found across the fairground, with the segment drawing strong interest globally. Also featuring a range of innovators in the reputable European and German Zones, the fair’s International Hall (W5) will offer valuable expertise and opportunities to trade visitors from China, Asia and beyond.

A strong combination of global exhibitors has already confirmed their participation this year, coming from Belgium, China, Germany, Hong Kong, India, Italy, Malaysia, Saudi Arabia, Switzerland, the UK, the US, and Vietnam. With the additional textile chemicals and dyes product category launched at the fair, new business avenues have been opened for renowned companies such as CHT Germany GmbH (Germany), Michelman Inc (USA), and more, who will convene at the debut Textile Chemicals and Dyes Zone. The new category is suitable for a range of textile applications, such as for sports & leisure, safety & protection, industrial protection, construction and more.

Other exhibitors featured in this zone include:

Dupré Minerals (UK): the company manufactures high-quality products for the vermiculite, precision casting, friction, and refractory industries. It will showcase the innovative Micashield Vermiculite Dispersion, an aqueous dispersion of chemically exfoliated vermiculite which forms a natural, high-temperature barrier, protecting technical fabrics from flame and heat. Key application areas: for industrial uses.

Shanghai Xinnuo Chemical (China): multi-certified, the company produces water-based emulsified waxes. Raw materials include various petroleum products and derivatives, natural waxes, synthetic waxes and various special varieties such as silicone oil. The melting point of the products ranges from oils which are liquid at room temperature to waxes with a melting point of up to 160°C. Key application areas: for medical & hygiene, industrial and automotive uses.

Yancheng Ruize Color Masterbatch (China): Ruize operates 36 colour masterbatch production lines, producing high-quality “Ruize” brand colour masterbatch, functional masterbatch, and pre-dispersed pigments using advanced grinding technology. The ISO-certified company’s products have been trusted by renowned brands like PGI, Avgol, Beaulieu, and Toray, since their approval for use on Refine IV equipment. Key application areas: for medical & hygiene, civil engineering, automotive and environmental protection uses.

European and German Zones to showcase continent’s industry excellence

With Europe’s production of technical textiles and nonwovens largely returning to pre-pandemic levels[1],[2], the vast Asian market represented at Cinte Techtextil China has attracted leading companies to showcase their quality, high-tech products in the European and German Zones.

In addition to well-known returning brands, such as EMS-

GRILTECH, Graf + Cie, Monosuisse, and Swisstulle from Switzerland, and Fibre Extrusion Technology from the UK, several new exhibitors are set to make their mark in the European Zone, including:

* Serel Industrie (Belgium): specialises in unique electronic systems based on X-ray technology for measurement, regulation and control of the textile production flow. Its new SERVO-X 70kV X-ray Generator is redefining efficiency and sustainability in textile recycling and technical fibre production.

* Proton Product International (UK): a leading manufacturer of instrumentation and control equipment for use in industrial production, with an international customer base. Its products are suitable for all 12 application areas.

Across the hall, the German Zone will also welcome a strong array of members, including Autefa Solutions, Mahlo, Reifenhauser Heinsberg, and many more, such as:

* Brueckner Textile Technologies: offers a wide range of finishing machines for technical textiles, nonwovens, floor coverings and glass fabrics, including coating and laminating lines, bonding ovens and stenter frames. Their machines are all energy efficient and sustainable.

* Lindauer DORNIER: Germany’s internationally recognised weaving machine manufacturer. End products produced with the company’s machines comprise extremely high-performance fabrics for airbags, carbon fabrics for composite structures, and aramid fabrics for fire-resistant or bullet-proof applications.

* Wetekam Group (new): specialises in technical monofilaments, 3D elements, and artificial turf yarns. It is one of Europe’s leading monofilament producers, reinforcing the German Zone’s reputation for cutting-edge innovation and market leadership.

Highlighted exhibitors featuring automotive textile solutions

Harnessing market demand, Cinte Techtextil China will feature a raft of global Mobiltech exhibitors, including Eastex Industrial Science And Technology and Oriental Industries from China, Picanol from Belgium, Rowa Group from Germany, and more:

* JCT Industries (Malaysia): a leading manufacturer of PVA (polyvinyl alcohol) products, including short cut, staple fibre and long filament strand. Its fibre can be used in multiple construction sub-sectors, while its filament can be used in various industries such as geosynthetics, textiles, and automotives. The company’s manufacturing process relies on local geothermal resources, and utilises renewable underground water sources.

* Jiangsu HongFeng Thread Technology (China): a manufacturer and exporter of polyester and nylon filament and spun sewing threads, with reliable solutions for apparel, automotive, furniture, medical, and more. Certifications include ISO 9001, IATF 16949, Global Recycled Standard and various OEKO-TEX credentials.

The fair’s product categories cover 12 application areas, which comprehensively span a full range of potential uses in modern technical textiles and nonwovens. These categories also cover the entire industry, from upstream technology and raw materials providers to finished fabrics, chemicals and other solutions. This scope of product groups and application areas ensures that the fair is an effective business platform for the entire industry.

The fair is organised by Messe Frankfurt (HK) Ltd; the Sub-Council of Textile Industry, CCPIT; and the China Nonwovens & Industrial Textiles Association (CNITA).

Hygienix 2025 opens registration; Absorbent Hygiene Leaders will convene Nov. 17-20 in Florida

MUMBAL, JULY 20—

INDA, the Association of the Nonwoven Fabrics Industry, has opened registration and tabletop reservations for Hygienix 2025, taking place Nov. 17-20 in Florida.

Hygienix will bring together industry leaders, innovators, and business professionals from across the absorbent hygiene products (AHP) industry for expert-led conference sessions, product showcases, interactive workshops, networking opportunities, and the presentation of the Hygienix Innovation Award.

Hygienix Program Highlights

Attendees will gain valuable insights across key areas driving the future of hygiene:

Sustainability and Circularity: A panel discussion will cover the latest advances in biobased materials, natural fibers, packaging innovations, Safe Operating Limits (SOL) and End-of-Life (EOL) solutions, and product construction.

Consumer and Market Insights: Speakers will explore trends such as the growth of

private label products, regional market outlooks, and in-depth sessions on skin health and the microbiome.

Smart Innovations: Sessions will provide insights on AI-powered manufacturing, retail technologies, and innovative point-of-sale models.

Regulations and Standards: Presentations will address crucial regulatory updates, including PFAS regulations, Extended Producer Responsibility (EPR), Quality Assurance Programs (QAP), and testing methods for modern AHP designs.

Business Opportunities and Networking

Tabletop exhibits will showcase the latest innovations in the absorbent hygiene industry, offering a platform for companies to demonstrate their products and services to potential partners and clients.

Hygienix 2025 will also feature Lightning Talks—a series of fast-paced, five-minute presentations by nearly 20 companies scheduled for Nov. 18-19 in the afternoon.

Workshops

Kicking off the conference, INDA will host three workshops on Nov. 17, providing hands-on learning and insights on crucial topics within the sector, including:

* Fundamentals of Absorption Systems and Opportunities in Adult Incontinence

James Robinson, Principal, Absorbent Hygiene Insights, LLC

* Innovations in Menstrual Care

Heidi Beatty, Chief Executive Officer, Crown Abbey, LLC

vBaby and Infant Care Market Dynamics

Natalia Richer, Director of

Business Development, Diaper Testing International

Hygienix Innovation Award

Recognizing breakthrough products, technologies, and solutions that are making a significant impact in the hygiene sector, the Hygienix Innovation Award will be awarded at the event.

Nominations will be accepted until Sept. 15. Finalists will present their products on Nov. 18, and the winner will be announced on Nov. 20 to close the event. Last year’s winner was HIRO Technologies’ MycoDigestable Diapers, a biodegradable solution driving environmental progress in infant care.
